THE CASE OF THE MISSING CATERPILLAR:

Dennis is a detective bee. He loves to follow clues and solve puzzles to help his friends.

Today Dennis has a particularly tricky case to crack and he needs your help. His best friend, Kevin the caterpillar, has gone missing. He was last seen munching an apple core beside a litter bin.

CAN YOU HELP DENNIS FIND THE 9 HIDDEN CLUES AND SOLVE THE CASE OF THE MISSING CATERPILLAR?

AMAZING BUG FACT FILE:

Did you know spiders have 8 legs and eight eyes. They use silk to build their webs to catch flies.

AMAZING BUG FACT FILE:

Did you know the bright colours of a ladybird are to warn predators to stay away!

Spring scavenger hunt

How many of these things can you spot today?

feather
